one of the most enthusiastic sellers here will categorically be in the middle of the best options to review.

Political Handbook of the World 2020-2021

The Political Handbook of the World by Tom Lansford provides timely, thorough, and accurate political information, with more in-depth coverage of current political controversies than any other single-source reference. It is the definitive source for finding complete facts and analysis on every country’s governmental and political makeup. To date, the Political Handbook of the World has appeared in 36 international editions, and has sold over 8 million copies worldwide

The Handbook of the World 2020-2021 also provides names of key ambassadors and international memberships of each country, plus detailed profiles of more than 34 international organizations and UN agencies. And this update will aim to include coverage of the impact of COVID-19 in each country, and its impact on the world. The Political Handbook of the World 2020-2021 offers a wealth of data in an easily accessible format, and is an essential reference work.

The Changing Security Dynamics of the Persian Gulf

Kristian Coates Ulrichsen 2018-02-01 The contradictory trends of the ‘post-Arab Spring’ region form the backdrop to, and the focus of, this volume on the changing security dynamics in the Persian Gulf, defined as the six GCC states plus Iran and Iraq. The political and economic upheaval triggered by the uprisings of 2011, and the rapid emergence of the Islamic State of Iraq and Syria in 2014, have underscored the importance of the Gulf states in the broader Middle East context. This volume provides a timely and comparative study of security in the Gulf region.

Terrorism and Counter-Terrorism in Saudi Arabia and Indonesia

Sumanto Al Qurtuby 2018-06-01 King Salman of Saudi Arabia began his rule in 2015 confronted with a

range of global and regional challenges. Following the coordinated terrorist attack on the dollar exchange rates in Jeddah in November 2015, the Kingdom was hit by a series of terrorist attacks, both abroad and at home. These attacks were not only a blow to the morale of the Kingdom and its people, but also a reminder of the threat of terrorism in the region and beyond. The Kingdom was not alone in its struggle against terrorism. Indonesia, too, has been the target of terrorist attacks, with the most recent being the suicide bombing at the presidential palace in Jakarta on January 14, 2016. In both cases, the Kingdom and Indonesia have responded with a strong commitment to counter-terrorist measures.

about the very human challenges a new president will face as he or she tries to restore America's standing in the
At the heart of this ongoing Cold War between Riyadh and Tehran lie the Sunni-Shia divide, and the use of tough and sometimes brutal tactics can bring the change that so far has eluded Saudi rulers. Mohammed bin Salman now is testing whether his forced march Riyadh's increasingly reckless and aggressive posture toward its great regional rival, Iran. Economic reform is most essential to secure Saudi Arabia's future vis-a-vis Iran. Salman's Legacy Madawi Al-Rasheed 2018 King Salman of Saudi Arabia began his rule in 2015 confronted with a series of unprecedented challenges. The dilemmas he has faced are new and significant, from leadership shuffles and falling oil prices to regional and international upheaval. Salman's Legacy interrogates this era and assesses its multiple social, political, regional and international challenges. Whether Salman's policies have saved the kingdom from serious upheaval is yet to be seen, but no doubt a new kingdom is emerging. This book offers historical and contemporary insights into the various problems that persist in haunting the Saudi state. Madawi Al-Rasheed brings together well-established historians and social scientists with deep knowledge of Saudi Arabia—its history, culture and contemporary politics—to reflect on Salman's kingdom. They trace both policy continuities and recent ruptures that have perplexed observers of Saudi Arabia. This lucid and nuanced analysis invites serious reflection on the Saudi leadership's capacity to withstand the recent challenges, especially those that came with the Arab uprisings. At stake is the future of a country that remains vital to regional stability, international security, and the global economy.

The Invisible Arab Marwan Bishara 2012-03-31 The Invisible Arab traces the roots of the revolutions in the Arab world. Marwan Bishara, chief policy analyst of Al Jazeera English and the anchor of the program 'Empire', combines on-the-ground reporting, extensive research and scholarship, and political commentary in this book on the complex influences that made the revolutions possible. Bishara argues that the inclusive, pluralistic nationalism that motivated the revolutions are indispensable to their long-term success. The Invisible Arab is a voyage in time from the Arab world's 'liberation generation' through the 'defeated' and 'lost generations', arriving at today's 'miracle generation'. The Invisible Arab unpacks how this new generation, long seen as a demographic bomb, has proved to be the agent of progress, unity and freedom. It has in turn used social networks to mobilize for social justice. Bishara discusses how Israeli, oil, terrorism and radical Islam have affected the interior identity of the region as well as Western projections upon it. Protection of Israel, Western imperial ambition, a thirst for oil, and fear of radicalism have caused many Western regimes and media to characterize Arab countries and people as unresponsive to democracy or progress. These ideas are as one-dimensional as they are foolish. Bishara argues that the Arab revolutions present a great window of opportunity for reinventing and improving Arab ties with the rest of the world – notably the West – on the basis of mutual respect and mutual interest. The revolutions will be judged by how they realize freedom and justice, and how they can pave the way for reconciling and accommodating nationalism and Islam with democracy. Bishara argues that these pillars -- liberty and justice reconciled with religion and nationalism, form the bedrock that will allow stability and progress to flourish in the Arab world and beyond.
